

We are bombing Aircraft Repair Works of Usine Liotard, situated approximately 1 mile N.W. of the Marshalling yards on the South Side of a road which follows the north bank of the R. Loire.

It is repairing F.W. 190s. Reports are somewhat conflicting as to the exact nature of the repair work but it seems likely that it is confined to airframes. The factory occupies an elongated site approximately 1500 ft. by 400 ft. and comprises 3 main buildings of substantial brick construction with glass roofing.

A Radio station with masts approximately 300 ft. high is situated at a point approximately 1600 yds west of target.

The majority of the buildings of the target have been disruptively painted.

10 S/E and 60 to 70 T/E may be vectored into us.

No heavy flak at target. Heavy flak approximately 2 miles west of target.

*We watch out for flak at Caen, Le Harve, Le Mans + Toul*

1 CW of B-17s are bombing No-ball targets in Cherbourg Peninsula at 10 AM. Will be over channel between 9:30 and 10:30
